

TOTALPREPARE

EMERGENCY PREPAREDNESS SOLUTIONS

Mobile / Vehicle Kit

Supplementary to the Get Home Bag or Grab and Go Bag, the Vehicle kit can be included in any car, RV, boat, or plane. This kit will be tailored to your specific vehicle and needs.

While similar in contents to the Get Home Bag and Bug Out Bag, the Vehicle Kit is specialized to deal with break downs, roadside emergencies, or long-term gridlock (6+ hours).

Cars are excellent sources of shelter and information, so if you find yourself in an emergency, stay in your vehicle for as long as it is safe. Do not leave your vehicle if you are stranded. It is more visible than you are for search and rescue teams.

Lastly, we recommend trying to keep your fuel tanks at least half full at all times.

Suggested Contents:

1. Auto tools to suit your skill level. At minimum a pair of jumper cables that work for your vehicle.
2. Extra oil and coolant
3. Water – 5 Year pouches are ideal as they do not leach chemicals into your water, and don't react to high or low temperatures.
4. Energy or ration bars, dried fruit, or MREs are all good food options for your vehicle.
5. Vehicle escape tool (window breaker, seatbelt cutter)
6. Change of clothes, warm gear, and shoes
7. Matches/lighter and tinder
8. Hygiene items like toilet paper, ReStop, garbage bags.
9. Work gloves
10. N95 masks

Additional items for the trunk:

1. Road Salt
2. Collapsible shovel
3. Towel
4. No-spill container of extra gas

The above lists will help you handle any breakdown, minor accident, or long term traffic stall. If you have a smaller vehicle, or minimal space, you may need to streamline the contents to make your kit work for you.
